

APPENDIX A
“Clean” Version of Each Paragraph/Section/Claim
37 CFR 1.121(b)(ii) AND (c)(i)

CLAIMS (with indication of amended or new):

Sub B2
Ex.  3. (Amended) The wireless local area network system as defined in Claim 1, wherein said connection controlling unit, instead of connecting said disconnected client terminal to said searched client terminal, obtains communication information from said searched client terminal by said search controlling unit and communicates with another of said access points connected to said searched client terminal.
